DX Notebook

Karen State 9V1VY promises 1Z9E operation in mid-June.

Malta - 9H DF2UU will be on as 9H3DX July 11-31, concentrating on the low bands. QSL home callsign. Thanks DXpress.

Nauru - C2 C21RK will take skeds for 160, using his 40 watts into a dipole. Catch him on 3794 kHz. Thanks DXpress.

Sudan - ST ON7IP has returned to the Sudan, planning to stay through July. Try 14188 around 1800Z or 14210 at 2200Z. (DXNS)

Faroes - OY LA9SEA and LA9EEA will be /OY from June 21st, for a week or two. (Long Skip)

Sierra Leone - 9L Bill 9L2MW frequents 21355 around 1745Z. He will be in 9L for another two years, but his battery power limits operating time. QSL via Jim Droge, 7138 Wilkinson Dr., Rockford MI 49341. (Long Skip)

Bhutan - A5 A QSL from A51PN says he is "no more QRV." However, Dale Strieter W4QM reports working some A51 stations from VQ9QM.

Guantanamo Bay - KG4 KG4XO is now on the air at the start of a two-year tour of duty. He promises 160 meter activity, too. QSL via the KG4 bureau: Box 73, FPO NY 09593.

Korea - HL Good polar propagation has brought many reports of HLs to TDXB. HL9CW says he is usually on Tuesdays and Thursdays 12-1300Z at the bottom of 20 CW.

Egypt - SU SU1HK puts a good SSB signal into the US around 0400Z. QSL 86 Callbook. Eddy Johnson SU1MB is again active from the Sanai. Try 14160 around 2100Z. QSL to A Company C 60 Infantry, Fort Lewis, WA 98433.

Haiti - 4V May 18th was Flag Day in Haiti, with many stations sporting 4V prefixes. QSL via HH callsign.

St. Pierre - FP Ralph Hirsch K1RH reports that his /FP license has arrived, but the request for a special callsign was denied.

Wrangel Island UA0KBD has been active around 14030 at 0200Z from controversial Wrangel Is. Wrangel lies north of the Bering Strait, and is claimed by the US, but settled by the Russians. Underground oil is the issue, with fishing rights close behind.

Prefix Madness

It's that time of year when all the strange prefixes come out of the woodwork (remember when the FCC issued special calls?) Let's hit some high points:

- B5QA was used to start off a new Chinese station. QSL Box 507, Fuzhou.

- 6F stations from Mexico can be confirmed through their XE counterpart calls: 6F2AQ via XE2AQ, for example.

- EK1P was a YL DXpedition to Franz Josef Land. QSL via UP2BBM.

- FT8YA at the French Dumont D'urville base at the magnetic South Pole shows up on 10108 and 7008 frequently. Also try ZL2AAU's DX net at 0700Z 7085 weekdays. QSL via F6DZU or direct to District of Terre Adelu, TAAF, French Antarctica (but QSL before Sept 1.)

- VK8MQ hails from Alice Springs. Listen 13-1400Z on 7003kHz.

- Extra-Large - British Columbia (Canada) hams can use the XL7 prefix during the EXPO in Vancouver. Also look for VE7EXPO at Place Canada.

QSL Corner

- South Georgia VP8AEN - GM3ITN has the last logs from this much-needed station.

- Egypt SU1XJ - K1HDO is still trying to confirm his 24 Apr 84 QSO with Paul. Any help?

- No stamps to USSR - K1KI reminds us that, contrary to advice in K5TSG's book DX Power, it is NOT legal to send any stamps (uncancelled or not) to Russian hams.

- No Green Stamps - India is another country where US\$1 bills are a no-no. Can TDXB readers provide definite information on others than won't allow Green Stamps?

Propagation Watch

Who needs sunspots? Even with solar flux readings near the minimum 70 (equivalent of zero sunspots), 20-meters conditions the week of May 12-17 were nothing short of spectacular! 20 was open most of the night, long and short paths. "It was like old times," reports one observer. The secret: very low absorption. With A indices in the 5-8 range worldwide, the band stayed open far past usual closing hour. Remember to check WWV at 18 minutes after the hour for the latest absorption info. One problem with no sunspots: 10 and 15 meters continue to be disappointing.

30 Meters

Conditions on 10 MHz have also been quite good. Check 10100-10110 around 09-11Z for Europe, and 19-22Z for parts West. Among the countries logged this year are: VK, ZS, PJ, FG, TK, CT1. LA, ZL, OY, EA6, SV5, J34, EI, GD, VP2V, and FT. Give the band a try, and send your 30-meter reports to TDXB.

RTTY DX

A West German SWL, Mike Weiler, has established a receive-only RTTY DX "Reception Box." It operates on 14081.0 kHz from 0930-1000Z. Mike will assemble the DX information and send it to users of the box. For more details, contact Mike at Stormstr. 126, 4130 Moers 3, West Germany. [This strikes me as something akin to third party traffic, and thus potentially afoul of third party regulations. Any comments? -ed.]

Some RTTY DX tidbits:

- SV5TS is often on 20 meters around 2100-2300. QSL via CB address.
- OD5NG, Tom, and A4XTQ, Toni, meet about 1345Z on 14084. Try calling AFTER their QSO. QSL Tom via G4TYI.
- TZ6FE has been worked on 14080 at 2200Z. Franz is a slow typist and not fond of pileups, so be gentle. QSL via DL4BC. (Op. hint: Try calling him in German.)
- 9U5TN showed up at 2100Z on 14098. QSL via CFE, Box 24077, Usumburu.
- 3C1MB operates 20 meters about 2230. QSL Manolo via EA7KF.
- 9V1WN and 9V1JY occasional come through on long path at 14095 around 1330Z, in QSO with DU1KG.
- Try TU2JJ on 14092 at 2300Z. QSL via KN0J.
